

Australia's Finest Quality Gelato Ingredients

Looking for a new supplier?

As Australia's first and only commercial producer of Gelato ingredients we are in a unique position to supply your business.

Our products are 100% Australian made, we use the best quality and the freshest local ingredients available. This guarantees a gelato that stands out from it's rivals in terms of presentation, longevity, and most importantly taste.

We offer a superior product with all the benefits of dealing directly with a local manufacturer.

Gelato Dry Mix Bases & Fruit Pastes

These products have been engineered in such a way that guarantees perfect results every time. Everything you need is a provided in the simple 3 step system of gelato dry mix base + water or milk + flavoured paste. There is no speciality knowledge or skill required to produce consistently high quality products.

We have dedicated many years of hard work to refining recipes, sourcing Australian ingredients, exploring manufacturing processes, and researching the Australian market.

Our focus is on the important issues of:

Cost And Value For Money

Quality

Taste And Freshness

Availability

Consistency and Reliability Of Supply

The Diversity Of Range

The GIMA range of products support Australian Industry, creating jobs and business opportunities. We utilise local Australian businesses and their ingenuity, know-how and technology. Wherever possible we source fresh 100% Australian produce and ingredients.

As an Australian company we are committed to maintaining the highest standards possible, both in quality and service. Our clients have the security of direct access to the manufacturer, along with support, technical advice, accountability and a reliable source of supply. The result is a premium range of products of exceptional quality.
